

Autumn School 2018

October 7-12, 2018

Julius-Maximilians-
**UNIVERSITÄT
WÜRZBURG**

Institute
of Mathematics

Digital Tools and Mathematical Modelling in Mathematics Education

Lecturers

- **Regina Bruder** (TU Darmstadt, Germany)
- **Gilbert Greerath** (WWU Muenster, Germany)
- **Stefan Krauss** (University of Regensburg, Germany)
- **John Monaghan** (University of Agder, Norway & University of Leeds, Great Britain)
- **Jana Trgalová** (University of Lyon, France)
- **Pauline Vos** (University of Agder, Norway)

Local organizing team: Hans-Stefan Siller and the Mathematics Education Team Wuerzburg

<http://autumnschool.dmuw.de>

Registration online until September 1, 2018
Financial support is available.

Founded by:
VolkswagenStiftung

Topics

The autumn school will bring together young researchers with acknowledged experts to discuss perspectives and up-coming fields of interest in the learning and teaching of mathematics.

Participants and Prerequisites

We would like to invite young researchers (Master students, PhD students and post-doctoral students) in mathematics education.

Venue

The lectures of the autumn school will be held at the Institute of Mathematics of Würzburg University. Würzburg is an old, typically German-style university town. It is located on the Main river and is surrounded by picturesque vineyards. Würzburg's crown jewel is the UNESCO World Heritage listed Würzburg residence, which is called the most unusual and harmonious of all Baroque palaces. Würzburg can easily be reached by train from Frankfurt international airport (90 minutes).

Fee and Financial Support

The autumn school is funded by the Volkswagen Foundation. Financial support for travel (within reasonable bounds), as well as accommodation and food (which is covered fully) is available for all participants. The fee for the autumn school is 170 €.

Important Dates

Deadline for registration is September 1, 2018.
